HOUSTON NARCOTIC CURE CO.

ful consideration, because of its locality as a commercial point, being easily reached from all parts of the South, and also because of its genial climate. What we do. By building up the nervous system from the very first we cause our patients to have absolute dislike for liquor in from two to five days. Ours is not a tearing or breaking down process, but just the reverse. We do not incapacitate our patients one minute from attending to their usual avocation. The flesh becomes firmer, the vision clearer, the hearing more acute, the appetite for food improves and natural sleep is enjoyed almost from the first. Elegant private parlors for ladies and gentlemen with attendants in waiting. Home treatment given when desired. All liquor the patient requires will be furnished free during term of treatment, which consists of three weeks, during which time they must be in attendance at the institute four times a day for a few minutes. Our charges are within reach of all, and we absolutely guarantee a cure or will refund your money in full. To those not satisfied to pay fee in advance, we will allow to deposit same in any of our city banks, subject to our draft, when cure is effected.

Cure for the Tobacco Habit sent by mail or express. Terms made

known on application.

The Houston Cure rests upon its merits, and while it bids God speed to every effort to helf the drinking man, yet it claims a superiority as a treatment that should attract the attention of all thoughtful persons.

Notre Dame Academy,

CHATTANOOGA, TENN.

Boarding and Day School,

Conducted by DOMINICAN SISTERS.

OBJECT:

Of this Institution is to be a Select Day School for Girls. In addition a limited number of boarders can be accommodated.

The convenience of access to Chattanooga from all points, recommends it as a place highly favorable for the location of literary institutions.

Parents may rest assured that every attention consistent with the spirit of a firm, but mild government, is paid to the young ladies placed at the Institution, whilst the utmost care is taken to nourish in their minds those principles of virtue and religion which can alone render education profitable.

In all applications for pupils, unexceptional references are required. For further information address

... PREFACE ...

the fourteenth volume of the Chattanooga City DIRECTORY, as on previous issues, we have spared neither pains or expense to make the work the handsomest and most complete directory in the country. Families living in the suburbs have been located on streets, and the post office of each suburb is given in the Suburban Department, enabling anyone to reach them easily in person or by correspondence. By comparing the book with directories of other cities, on file at Library rooms, 812 Market St., you will find its arrangement the most complete in the U.S. The liberal support given us makes plete in the U.S. The liberal support given us makes this possible, and to our patrons we return thanks. A comparison with Volume XIII will show a gratifying increase in business establishments. Our census report, which shows a population within the corporate limits of 40,584, has been given to the Registrar of Vital Statistics and the death rate from that office will be computed on this basis.
